7:00 am Registration and Breakfast

Session I: Premalignant Lesions of the Liver
Moderators: Kiran Dhanireddy, M.D. and Jeffrey Kahn, M.D.

8:00 am Therapeutic Advances in the Treatment of Viral Hepatitis
Saro Khemichian, M.D.

8:30 am NASH-A New Endemic Premalignant Condition of the Liver
Jeffrey Kahn, M.D.

9:00 am Living Donor Transplant: Current Indications and Results
Yuri Genyk, M.D.
Dioni Rovello Freking, N.P.

9:30 am Pathology of Premalignant Lesions of the Esophagus and the Pancreas
Parakrama Chandrasoma, M.D.

10:00 am Break

Session II: Premalignant Lesions of the Pancreas
Moderators: Jacques Van Dam, M.D., Ph.D. and Robert Selby, M.D.

10:15 am Heritable Cancers of the Gastrointestinal Tract and Pancreas: Screening and Treatment Guidelines
Kevin McDonnell, M.D., Ph.D.

10:45 am Premalignant Lesions of the Pancreas: Role of EUS in Diagnosis and Treatment
James Buxbaum, M.D.

11:15 am IPMN: Natural History and Treatment Guidelines
Lea Matsuoka, M.D.

11:45 am Surgery for Premalignant Lesions of the Pancreas: State of the Art in 2015
Dilip Parekh, M.D.

12:15 pm Lunch

Session III: Premalignant Lesions of the Esophagus
Moderators: Jeffrey Hagen, M.D. and Michael Kline, M.D.

1:00 pm GERD: State of the Art Diagnosis and Treatment 2015
Edy Soffer, M.D.

1:30 pm Advances in the Endoscopic Diagnosis, Treatment and Surveillance of Barrett’s Esophagus
Michael Kline, M.D.

2:00 pm Surgical Treatment Options for Barrett’s Esophagus
John Lipham, M.D.

2:30 pm Break

Session IV: Premalignant Lesions of the Colon and Rectum
Moderators: Andreas Kaiser, M.D. and Afsaneh Barzi, M.D., Ph.D.

2:45 pm Current Guidelines for Colorectal Cancer Screening and Cancer Surveillance
Gregory Idos, M.D.

3:05 pm Modern Management of Inflammatory Bowel Disease
Caroline Hwang, M.D.

3:35 pm Laparoscopic Surgery for Premalignant Conditions of the Colon and Rectum
Kyle Cologne, M.D.

4:00 pm Adjourn
FACULTY

COURSE DIRECTORS

Dilip Parekh, M.D.
Professor of Surgery
Division of Hepatobiliary and Pancreatic Surgery

Jeffrey Hagen, M.D.
Associate Professor of Surgery
Division of Thoracic Surgery

Jeffrey Kahn, M.D.
Associate Professor of Clinical Medicine
Division of Hepatology

Caroline Hwang, M.D.
Assistant Professor of Clinical Medicine
Division of Gastroenterology

Jacques Van Dam, M.D., Ph.D.
Professor of Medicine
Division of Gastroenterology

Gregory Idos, M.D.
Assistant Professor of Clinical Medicine
Division of Colorectal Surgery

Afsaneh Barzi, M.D., Ph.D.
Assistant Professor of Clinical Medicine
Division of Medical Oncology

Andreas Kaiser, M.D.
Professor of Clinical Surgery
Division of Colorectal Surgery

James Buxbaum, M.D.
Assistant Professor of Clinical Medicine
Division of Gastroenterology

Saro Khemichian, M.D.
Assistant Professor of Clinical Medicine
Division of Gastrointestinal and Liver Diseases

Parakrama Chandrasoma, M.D.
Professor of Pathology
Department of Pathology

Michael Kline, M.D.
Assistant Professor of Clinical Medicine
Division of Gastrointestinal and Liver Diseases

Kyle Cologne, M.D.
Assistant Professor of Colorectal Surgery
Division of Colorectal Surgery

John Lipham, M.D.
Associate Professor of Surgery
Division of Upper GI and General Surgery

Kiran Dhanireddy, M.D.
Assistant Professor of Surgery
Division of Hepatobiliary and Pancreatic Surgery

Lea Matsuoka, M.D.
Assistant Professor of Surgery
Division of Hepatobiliary and Pancreatic Surgery

Dioni Rovello Freking, N.P.
Living Donor Liver Transplant Coordinator

Kevin McDonnell, M.D., Ph.D.
Clinical Instructor in Internal Medicine
Division of Medical Oncology

Robert Selby, M.D.
Professor of Surgery
Division of Hepatobiliary and Pancreatic Surgery

Yuri Genyk, M.D.
Associate Professor of Surgery
Division of Hepatobiliary and Pancreatic Surgery

Edy Soffer, M.D.
Professor of Clinical Medicine
Division of Gastroenterology
COURSE DESCRIPTION

Early diagnosis and tailored treatment of premalignant lesions of the gastrointestinal tract, pancreas and liver has increasingly become an important focus for reducing the incidence of gastrointestinal, pancreatic and liver cancers thereby leading to improvements in long-term outcomes. The purpose of this symposium is to update physicians in this area. This one day course provides participants with a series of lectures by USC faculty experts spanning important topics in the diagnosis and treatment of premalignant lesions of the gastrointestinal tract, liver and pancreas for the practicing physician. Lecture presenters use an anonymous electronic audience response system to allow immediate feedback reflecting the group’s active learning process and to enable group reflections on challenging clinical questions in real time. This educational activity provides physicians with an up-to-date objective evidence-based clinical content relevant to physicians practicing in the field. Participants will attain and integrate new practical information and knowledge into their clinical practices to improve patient care and patient outcomes.

EDUCATIONAL OBJECTIVES

At the conclusion of the course participants will be able to:

• Discuss the current standards of care for the diagnosis of premalignant lesions of the esophagus, colon, rectum, liver and pancreas.

• Assess the importance and the utility of molecular genetics for stratification of treatment options and patient tailored therapies.

• Identify and assess the role of genetic screening in the management of heritable cancers of the gastrointestinal tract and pancreas.

• Assess the importance of innovative technological advances in the diagnosis and stratification for treatment of premalignant lesions of the gastrointestinal tract, liver and pancreas.

• Apply best practice strategies and current standards of care for the surgical treatment of premalignant lesions of the gastrointestinal tract, liver and pancreas.

• Optimize clinical application of minimally invasive surgery for treatment of premalignant lesions of the esophagus, colon and pancreas.

TARGET AUDIENCE

This course is intended for local and regional community general surgeons, hepatologists, medical oncologists, gastroenterologists and all allied health professionals who seek to enhance their understanding of premalignant lesions of the gastrointestinal tract, liver and pancreas treatment options to optimize management of their patients.

Accreditation Statement

The Keck School of Medicine of the University of Southern California is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation

The Keck School of Medicine of the University of Southern California designates this live activity for a maximum of 6.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
REGISTRATION

Premalignant Lesions of the Gastrointestinal Tract, Liver and Pancreas:
Standards of Care in 2015: July 18, 2015

Tuition: Early bird registration closes July 13, 2015 noon PDT.

- $100 MD, DO
- $75 Nurses, Allied Health Professionals

On site registration available on July 18, at Westin Pasadena.

- $125 MD, DO
- $100 Nurses, Allied Health Professionals

Cancellation Policy: Registration cancellations must be received by the USC Office of CME (fax or email) by July 13, 2015, 4:00 pm PDT for a refund of tuition to be issued. A $25 cancellation fee will be applied. USC will not refund any travel costs incurred.

In the event of course cancellation by conference organizers, all registration fees will be fully refunded. USC will not refund any travel cost incurred.

Location: Westin Pasadena: 191 N. Los Robles Avenue, Pasadena, CA 91101
Telephone: (626) 792-2727

Parking: Hosted self-parking, $5. Valet is $17. Entrance is off of Union Street at Los Robles Avenue.

Register: Mail: 1540 Alcazar Street, CHP 223, Los Angeles, CA 90033
Online: www.usc.edu/cme, scroll down to “Premalignant Lesions of the Gastrointestinal Tract, Liver and Pancreas”
Phone: (323) 442-2555  Fax: 1 (888) 665-8650
On site: On July 18, foyer of the Fountain Ballroom on the 2nd floor of the Westin Pasadena
